Our Mission:

We're Empowered To Achieve The impossible (WETATi) educates low- to moderate-income students through practical and experiential activities that prepare students for employment, entrepreneurship, and future economic opportunities.

Our Vision:

Economic empowerment through equitable access to employment and job creation.

Our Programs:

The social and economic status of an individual or group can be measured as a blend of wealth, income, occupation, and education. WETATi educates and trains low- to moderate-income students from middle school through college to change their economic narrative and prepare for the 21st century workforce through entrepreneurship and work skills training. WETATi provides **three programs**:
