

What science can do

Inspired by our purpose and values, we're transforming the future of healthcare by unlocking the power of what science can do – for people, society and the planet.

### Our purpose

We push the boundaries of science to deliver life-changing medicines

### Our values

We Follow the science

We Put Patients First

We Play to Win

We are Entrepreneurial

We Do the right thing

# AstraZeneca at a glance

We are a global, science-led, patient-focused pharmaceutical company seeking to unlock the power of what science can do.

Science and  
innovation-led

Patient-focused

Leading in our  
therapy areas

Diversified  
portfolio and  
global reach

Positively  
impacting people,  
society and  
the planet

# Leading in our therapy areas

We're creating novel therapies that help people with cancer, other chronic and rare diseases – areas where we believe we can make the most meaningful difference to patients.

## Oncology

Leading a revolution in oncology to redefine cancer care

## BioPharmaceuticals

Our aim is to transform care for billions of people living with chronic diseases and delivering long-lasting immunity

Cardiovascular,  
Renal & Metabolism

Respiratory &
